Worried About Choosing the Wrong Car Warranty?

If you're worried about making the wrong decision when purchasing a car warranty, several of these concerns have probably already crossed your mind:

- How can I be sure I'm not paying too much?
- What can happen if I go with the wrong company?
- Where can I find a car warranty that will pay my claims?
- How can I tell if I'm being ripped-off?

...just to name a few. And in today's world internet scams, these are all very valid questions. You'd think it would be easier to compare car warranties online since you can search through so many all in one place. However, if that were true then we wouldn't even be having this discussion.

The only way to find the answers you are looking for is to get the car warranty company on the phone and be bold with your concerns. Find out if they are a direct marketing company, or if they actually handle the car warranty itself. Ask to see a copy of the contract BEFORE you buy and make sure they are willing to answer questions about it. Have them go over the procedure for filing a claim, and make sure they will actually pay the repair directly.

At DCI Warranty Services we want you to be as educated as possible, which is why we provide so much information on our site. We recognize how worried car warranty consumers have become with the recent influx of sham companies and denied claims. We'll answer the hard questions that other warranty companies don't want you to ask, because we want to keep you as a customer so you'll refer us to your friends and family. We want to take the worry out of your search for a car warranty as much as we can.
